| 2 | Summary of the Event | E – Quiz was organized by Anti-Ragging Cell – PRABALA, Department of Computer Applications, on the topic of Self Awareness. The quiz was conducted to first the semester of BCA. In this quiz, we've included a series of multiple-choice questions designed to help how much self aware are they in some situations they might arise. This research indicates that when we look inward, we can clarify our values, thoughts, feelings, behaviors, strengths, and weaknesses. We are able to recognize the effect that we have on others. Erich's research finds that people with self-awareness are happier and have better relationships. They also experience a sense of personal and social control as well as higher job satisfaction. When we look outward, we understand how people view us. People who are aware of how people see them are more likely to be empathetic to people with different perspectives. The student showed interest in this quiz and they felt really informative. |
