23.	Summary of the Event	In the seminar led by Mr. Abhijeet Karve, Senior Security Specialist at the London Stock Exchange Group, participants explored various domains within cyber security and the critical roles that support an organization's security posture. The discussion encompassed risk assessment, highlighting roles like penetration testers and red teamers who identify vulnerabilities through simulated attacks. Compliance was emphasized, with roles such as compliance officers and privacy officers ensuring adherence to legal standards like GDPR. The seminar also covered identity and access management, detailing the responsibilities of IAM analysts and privileged access management specialists in monitoring user activities. Additionally, security operations were addressed, focusing on SOC analysts and incident responders who handle real-time threats. Overall, the session underscored the importance of collaboration across these roles to create a robust cyber security framework that effectively mitigates risks and enhances overall security.
