The Elephant Whisperers

4.5/5 - Excellent

Ofcourse its Oscar so its definitely a thing to watch

Even though its a documentary the direction is just so good and natural and not much edited.

The documentary also shows about that how the bees are producing in the forest.

It shows the connection between man and nature. It tells about the unconditional love between the couple and elephant.

The cinematography with slow camera movements and breath taking sound is just mesmerizing.

Documentary Review

'The Elephant Whisperers'

The movie 'The elephant whisperers' shows the emotional relationship between the elephant and the couple who took care of them baby elephant like their kids.

It shows the joy, the touch and the emotional well being of those people.

The bonding between them is just like parents and children.

The movie shows the emotional attachment that the couple had when their elephant was taken away to give it to other care takers.

It shows how the people there just took what they need from the nature and respecting the nature being there.

This movie being awarded with Oscar was so deserving where it shows the love of nature, love for animals, wildlife and the way of living in forest is all inherent with those people since the day they were born.

It is also proud saying Boman and Billa was the first bird elephant care taker of two elephants Rajhu and Ammu in South India.
