WOMEN POWER

Women us the god gifted life on the Earth. They are often known for their ability to multitask which has been recognized and admired throughout history. They handle multiple responsibilities efficiently and effectively. They handle tasks, manage time effectively & delegate responsibilities to ensure that work is completed on time. They manage household chores, work outside to stand independent take care of children & manages herself from all these things.

In this developing world women are no longer behind men. They are being part of various developments in different fields. With developing their professional careers they take give equal attention towards their personal life. They make sure that everything is in right place and effectively manages their chores.

In conclusion, women have demonstrated their ability to manage multiple responsibilities

Women represented a widely discussed topic in today's society, and talks about the influence of the female gender. But, it is a long term and revolutionary process against discrimination that we have to guide. Women empowerment refers to educating women and helping them build an identity of themselves. In our society women are expected to mould themselves according to the wishes of the men who feel that they are not allowed to have an individual opinion or an independent identity. Empowering women means encourage them to be financially, culturally & socially independent. A woman must be enabled to pursue what she loves & develop into a fully functioning human. Her individuality must be nurtured & acknowledged. In some empowerment has had millions of women across the globe to pursue their dreams. They are steadily moving forward in life with strong determination on respect & faith.

Women also have a choice

Women have been of great importance for every generation. Women play the role of wives and mothers in every society. The traditional role came built in the past & our society are on women giving responsibilities to men by being their wives. Apart from this, the women to be an active girls near the. She possess a woman that a man doesn't possess.

Women are more responsible roles of tasks to matters related to the family. They have to ensure that every thing is running smoothly as expected. Not only are women concentrated on matters of the family but in today's generation they are also a key player of the economy in different ways.

In the past, the women were seen as an inferior person who was only expected to remain a house do the household chores & take care of house hold activities. But in today's world, women go to work and earn money that they put it partly to keep up the economic situation and to lead a peaceful life.

Women & a person who can adjust and to take up any role in the family & society. To other happiness she sacrifices her own happiness to have a peaceful life.

Women are a name says - Women can do anything. In the name itself it says to them, it means we may have completed without women. I am very proud that I am also a woman. In these days many changes are happening. In these days women has to work not only in the home but also outside. In a man can work outside but in recent world a woman still only a work as a traditional concept.

A girl from the day she has to forgive and has to keep her dreams and her happiness for the sake of other family members. I will like to take an inspiration from my mom. As she is my everything, she faced many problems but still she support me for all the education as something which is related to me. She is all in one package or one can do anything for the sake of family.

She can make a family happy by making everything that a family needs. She is the one who can wake up early and do all the work without just and cannot think about the herself. Women who is independent and can do anything in the society who can work in any place. She is very strong as she is in many departments like, police, lawyer, conductor, driver, pilot and the many also. She appear from there many more they are trusted by, but still apart.
