

Workshop on “Software Testing and Methodologies” on 19-12-2020:

Software testing has been an imperative part of the software development process, be in the traditional waterfall model or the agile methodology. COE - Web Technologies, MCA(BU) organised an Online Workshop on Software Testing and Methodologies on 19th December 2020. Resource person is Mr. Vipin Jain, Sr. Delivery Manager, Metacube Software Pvt Ltd, Jaipur. The workshop covered the essence of testing methodologies, career prospects in testing and familiarized the students with one of best modern-day software testing tool, JIRA. Demonstration of the testing tool was given by the resource person.
