Cell Annual Report June 2020-21 May

Eco Club plays an important role in creating environmental awareness and motivate students to undertake plantation of trees. The COVID-19 pandemic has become a major public health concern worldwide, which can impact environmental sustainability and social responsibility, as well as people's quality of life. In this context, environmental awareness, sustainable consumption and social actions of people have been effectively changed, as a period of quarantine, social isolation and health crisis caused by Pandemic has been experienced.

To address the issues of Pandemic Eco Club- Prakruthi Organized a Webinar on Impact of Covid-19 Environment and its Issues. A Poster Presentation Competitions were held related to Environment and Public Health. Students prepared the Posters addressing all the areas of effected environment. They also shown the greatness of various people who worked constantly fight with the virus and saving people. The Eco Club also organized a webinar on "Healthy Life Style for Sustainable Living" by inviting DOCTORS to improve the health, immunity and addressing Post Covid issues.

The students of DSCASC celebrated World Earth Day event in April by presenting Case Studies and Videos and explained the need of plantation and saving the earth. The students raised the awareness about the climate change and global warming. World Environment Day was celebrated in the month of June 2021. On this day National Environment Quiz was conducted on the topic "Environment and Public Health".
