Feedback

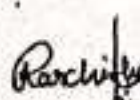

"Topic: ISDC: Gateway to Overseas Education"

The Career guidance session on "ISDC: Gateway to Overseas Education" provided useful information on studying abroad but had some notable gaps. The session primarily focused on overseas education, eligibility criteria for different countries, and the cost of studying abroad.

While these aspects were valuable, the session lacked crucial details on job market conditions, placement opportunities, and salary expectations after graduation, key factors that influence students' decision about studying abroad. I was expecting insights into career prospects, post-study work permits, and long-term return on investment, but these topics were not adequately addressed.

Despite offering a general overview of overseas education, the session could have been more comprehensive by including discussions on employment trends, demands for specific skills in various countries, and strategies to secure high-paying jobs post-graduation.
