| 22     | Summary of the Event       | As part of the preparation for the upcoming internal hackathon, a seminar session was organized for the students. The session was conducted by Akshay Gowda from IV Semester, B Section, who had previously participated in a hackathon and shared his experience with fellow students. During the session, he explained how hackathons are conducted, how teams can approach problem statements, and how ideas can be developed into workable solutions. He also spoke about time management, teamwork, coding strategy, and the importance of presentation during the final evaluation. The session was interactive and informative, helping students understand what to expect in a hackathon environment. It motivated students to prepare better and participate confidently in the upcoming internal hackathon. The session created enthusiasm and encouraged students to participate confidently. |     |   |     |

# SKILL-UP FOR HACKATHON 2026

Date: 25<sup>th</sup> February 2026

RegNo:- UD36J2550106

Name: Jushar Chavan

Sem: II<sup>nd</sup> Sem BCA

Class: 'B'

Feedback:- I feel that the session was really interesting because it boosted our curiosity and also it made us know about the Hackathon. The session also made us know about solving the problem also how to make or create an app or website by using AI tools, using AI for good purpose & useful for people in need. Also it was an good learning session about AI Tools & Hackathon. Last but not the least, Overall the session was good and amazing.

Skill up for Hackathon

The skill up for Hackathon session was an excellent kickstart for aspiring developers like us BUA students. It covered essential topics like rapid prototyping, API integration, and team collaboration strategies in a fast-paced, hands-on format that mirrored real hackathon pressures. The resources shared, including Github templates and Bootstrap starters, are perfect for our full-stack projects. However, a bit more time on AI tools for quick data analysis could elevate it further, given how prevalent ML prototypes are in modern hackathons. Overall, this session boosted my confidence for upcoming competitions on platforms like Google Cloud Arcade. It's a must-attend for anyone building a portfolio, and I'd recommend it to fellow students prepping for interviews or virtual internships. Great job equipping us with practical skills!

Sushmitha E
