20.	Certificates Printed?	NA
21.	Feedback Collected?	Yes
22.	Attendance Sheet Attached?#	Yes
23.	Summary of the Event	A "best out of waste" activity is a fun, educational exercise that encourages participants to use discarded materials creatively, transforming them into something useful or decorative. In this activity, students gathered items like plastic bottles, cardboard, old magazines, and fabric scraps, and brainstormed ways to repurpose them. This process fosters creativity and awareness of recycling and environmental responsibility. Through hands-on creation, students learnt the importance of reducing waste while developing skills in crafting and innovation. It's a rewarding experience that helps raise environmental consciousness, proving that waste materials can be given a second life instead of contributing to pollution.

Topic: "Best out of waste".

The "Best out of waste" activity conducted by Eco club was a very thought provoking, brainstorming activity that challenges the participants to show their creativity and concern towards the environment by transforming the materials which are considered waste or useless into something attractive or useful by bringing out the best from that material which can be utilized for different uses based on the creator's ideas from the participant's creativity ranging from creating a beautiful show piece consisting of beautiful paints, attractive lights on a glass bottle to unique idea of making Pop-corn out of a Coca-Cola tin. Participants showed their talents by using plastic elements into attractive and eye catching show pieces like a miniature made from cardboard.
