24.	Summary of the Event	The Department of Computer Applications (BCA) conducted a seminar on Employability Skills Required for Data Analytics by Mr. Maheshwar Narayanan Assistant Vice President Imarticus Learning on 07-08-2026 with the objective of giving students skills required for data analytics. Data analytics is a career that thrives on continuous learning and curiosity. The seminar concluded with the message that tools like Excel, SQL, and Python are important, but the real value of an analyst lies in thinking analytically, solving problems systematically, and turning raw numbers into clear, accurate, and actionable decisions. Outcome of the program - Students gained a clear understanding of the field of data analytics and its career scope - Students learned the complete skill set — technical, analytical, and soft skills — required for employability - Students understood the importance of accuracy, systematic thinking, and statistical reasoning in real-world analytics - Students received practical guidance on how to start building these skills (Excel, SQL, Python) during their BCA course - Students were motivated to work on datasets and projects to build a strong portfolio
