24.	Attendance Sheet Attached? #	Yes	23.	Photographs of the Event	Yes
26.	Summary of the Event (Around 100 words)	Students participated in an industrial visit to Isiri Farms and Pride Bakers, gaining valuable practical exposure. At Isiri Farms, which specializes in milk and milk product production, students learned about dairy processing, quality control, and cold chain management. They observed how raw milk is collected, processed, and converted into products like curd, butter, and ghee while maintaining hygiene standards. At Pride Bakers, students explored baking techniques, production processes, and packaging methods. The visit enhanced their understanding of food processing industries, entrepreneurship, and operational efficiency, bridging the gap between theoretical knowledge and real-world practices.

FEEDBACK ON THE INDUSTRIAL VISIT TO ISIRI FARMS

The Industrial visit to Isiri Farm was a really good and knowledgeable experience for us. It gave us a chance to understand dairy farming and milk production in a practical way.

During the visit, we saw how cows are properly taken care of, including their food and cleanliness. We also learned how milking is done and the importance of maintaining hygiene during the process.

It was interesting to know how milk is stored safely to keep its quality fresh. We were also given idea about how milk is supplied to different places in organized manner.

We were also let to play with the calf's and later on we were taken to Pride bakers to see and learn about bakery items.

Overall, the visit was very helpful and gave us a clear idea about marketing, and industry works in real life. It was great beyond classroom learning.

Thank You [Anjaly N.S U03CT24C000]

FEEDBACK ON THE INDUSTRIAL VISIT TO ISIRI FARM

The industrial visit to Isiri farm was a very good and informative experience of us. We got the opportunity to learn practically about dairy farming & milk production.

During the visit, we were shown how cows are taken care of, including their feeding and hygiene. We also learned about the process of milking & how cleanliness is maintained while collecting the milk.

It was interesting to see how the milk is preserved properly and stored to maintain its quality. We were also explained about how the milk is distributed to different places in an efficient way.

Overall, the visit was very useful and helped us understand the real-life working of the dairy industry. It was a great learning experience outside the classroom.

Thank you.
