I am B Tausif umal student of 2nd Sem MCA-A, as with my classmates we had been to St Joseph's university for an inter college event named Elixir 2026. We had great experience in the exhibition by meeting students with their models. The models were simple but were creative and also meet startup founders too. The unique thing which I liked in the exhibition is the students from other countries where representing their country. Overall my experience was good.

I am Haushith S.A, student, ~~from~~ 2nd sem MCA. ~~we~~ I had been to St. Joseph's university along with my classmates to attend the inter college event Elixir 2026. We had the opportunity to know about several projects related to Cyber security, Face recognition projects and other projects related to computer science. We had opportunity to know and learn lot about those project. In the event we came across models from every branch. I was good to attend these kinds of events in future as well.
